

**Name:** Rohan Mehta  
**Email:** rohan.mehta@email.com  
**Phone:** +91 91234 56789  
**LinkedIn:** linkedin.com/in/rohanmehta  
**GitHub:** github.com/rohanmehta

**Objective:**

AI Researcher with 4 years of experience in deep learning, natural language processing, and computer vision. Interested in advancing AI research and developing state-of-the-art models for real-world applications.

**Education:**

- **Ph.D. in Artificial Intelligence – IIT Bombay (2020–2024)**
- **M.Tech in Computer Science – BITS Pilani (2018–2020)**
- **B.Tech in Information Technology – NIT Surat (2014–2018)**

**Technical Skills:**

- **Programming Languages:** Python, C++, Java
- **AI & Machine Learning:** Deep Learning, NLP, Computer Vision, Reinforcement Learning
- **Frameworks & Libraries:** TensorFlow, PyTorch, Keras, OpenCV, Hugging Face
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn
- **Cloud & Tools:** AWS, GCP, Docker, Git, Jupyter Notebook

**Experience:**

**AI Research Scientist | VisionAI Labs, Bengaluru**

*July 2022 – Present*

- Designed and implemented deep learning models for image recognition with 95% accuracy.
- Worked on NLP models for question answering and summarization.
- Published research papers in reputed AI journals and conferences.

**Research Intern | AI Solutions, Hyderabad**

*Jan 2021 – June 2022*

- Explored reinforcement learning algorithms for robotics applications.
- Assisted in creating datasets for computer vision projects.

**Projects:**

- **Vision Transformer (ViT) Implementation:** Developed a transformer-based image classification model.
- **Chatbot using NLP:** Built a conversational AI using Transformer-based architectures.
- **Autonomous Drone Navigation:** Implemented reinforcement learning model for path optimization.

**Certifications:**

- **Deep Learning Specialization – Coursera (Andrew Ng)**
- **Advanced NLP with Transformers – Udemy**

**Achievements:**

- **Published 3 papers in international AI conferences (NeurIPS, CVPR).**
- **Winner of AI Hackathon 2021 for NLP project.**

**Languages: English, Hindi**
